✉ mfli22@m.fudan.edu.cn

AI-based Empirical Operations Management · Causal Machine Learning · Structural Estimation

Education

Fudan University, School of Management

PhD Candidate, Management Science

• Department of Management Science. Advisor: Prof. Xiaole Wu.

Shanghai, China

Sep. 2022 – Present

Operations & Decision Technologies, Kelley School of Business, Indiana University

Visiting PhD Student

• Host: Prof. Wenchang Zhang.

Bloomington, IN, USA

Sep. 2024 – Dec. 2024

Fudan University, School of Management

B.S. in Statistics

• Department of Statistics. Advisor: Prof. Feiyu Jiang.

Shanghai, China

Sep. 2018 – Jun. 2022

Research Interests

AI-based empirical operations management; causal machine learning; structural model estimation; manufacturing efficiency and consistency; supply chain resilience.

Publications and Manuscripts

Ji Huang, Mengfei Li, Shuai Shao (listed in alphabetical order)

Distribution Shift Alignment Helps LLMs Simulate Survey Response Distributions

ACL 2026 Findings (CCF-A)

Mengfei Li, Wenchang Zhang, Cheng Yue, Ming Liu, Xiaole Wu

Experience-Based Learning in SMEs: A Dual Perspective on Manufacturing Efficiency and Consistency

Revise and resubmit at
Management Science

Mengfei Li, Xiaole Wu, Yang Chen, Jinyan Zhu

Metrics of Supply Chain Resilience: Structural Change-Points and Weighted Cumulative Loss

Third-round review at Journal of
Management Sciences in China

Mengfei Li, Guihua Wang, Wenchang Zhang

A Structural Forest Estimation of Heterogeneous Newsvendor Models

Working paper

Ji Huang, Mengfei Li, Shuai Shao (listed in alphabetical order)

LLMs Simulate Survey Response for Joint Distribution of Multiple Questions

Working paper

Ziyin Bin, Mengfei Li, Zibo Liu, Lezhen Wu, Xiaole Wu (listed in alphabetical order)

A Counterfactual Analysis of Capacity Decision of Photovoltaic Enterprises

Working paper

Zhe Zhang, Handan Shi, Mengfei Li

Little-Treat Consumption: A Qualitative Analysis Using Generative Large Language Models (GLLMs)

Working paper

Conference Presentations

14th POMS-HK International Conference

Dissecting the Learning Curve for Supply Chain Efficiency: An Empirical Analysis

Hong Kong, China

Jan. 2024

16th CSAMSE Conference

Dissecting the Learning Curve for Supply Chain Efficiency: An Empirical Analysis

Xiamen, China

Jul. 2024

2024 INFORMS Annual Meeting

Dissecting the Learning Curve for Supply Chain Efficiency: An Empirical Analysis

Seattle, USA

Oct. 2024

2024 DSI Annual Conference

Dissecting the Learning Curve for Supply Chain Efficiency: An Empirical Analysis

Phoenix, USA

Nov. 2024

15th POMS-HK International Conference

Dissecting the Learning Curve for Supply Chain Efficiency: An Empirical Analysis

Hong Kong, China

Jan. 2025

Workshop on Empirical Operations Management

Dissecting the Learning Curve for Supply Chain Efficiency: An Empirical Analysis

Hong Kong, China

Jan. 2025

- Presentation by the supervisor.

35th POMS Annual Conference

Dissecting the Learning Curve for Supply Chain Efficiency: An Empirical Analysis

Atlanta, USA

May 2025

35th POMS Annual Conference

A Structural Forest Estimation of Heterogeneous Newsvendor Models

Atlanta, USA

May 2025

2025 INFORMS International Meeting

A Structural Forest Estimation of Heterogeneous Newsvendor Models

Singapore

Jul. 2025

Research Projects

NSFC Major Project: Theoretical Foundations of Supply Chain Resilience and Security

Participant

Jan. 2023 – Dec. 2027

NSFC Young Student Basic Research Project: Integrating Causal Machine Learning and Structural Model Estimation

Principal Investigator

Jan. 2025 – Dec. 2027

State Grid Shanghai Electric Power Company Management Consulting Project

Participant

Feb. 2025 – Present

- Power grid supply chain network resilience and security analysis based on the SPOT framework.

China Energy Research Society Research Consulting Project

Participant

Dec. 2025 – Dec. 2026

- Four-tier structural model construction service project for the photovoltaic industry.

Honors & Awards

2025	Outstanding Student Model , Fudan University	10 students per year
2025	Honorable Mention , 15th POMS-HK International Conference Best Student Paper Award	6 students per year
2019–2021	Cargill Global Scholar , Cargill	15 students per year
2019–2020	Huawei Scholarship / First-Class Outstanding Student Scholarship , Fudan University	
2022–2027	Zhuobo Scholarship , Fudan University	
2020–2021	Zheng Zukang Academic Scholarship , Fudan University	
2018–2019, 2020–2021, 2021–2022	Outstanding Student , Fudan University	

Teaching Experience

MBA Course: Science and Technology Innovation Young Cadre Program

Fudan University

Teaching Assistant

Undergraduate Course: Operations Management

Fudan University

Teaching Assistant
